Accounts Payable Document Integration

Overview

Accounts Payable Document Integration allows you to easily link any document or set of documents to accounts payable invoices in your Sage MAS 90 or MAS 200 software. It provides you with flexible setup capabilities so you can name and store your documents the way that works best for you.

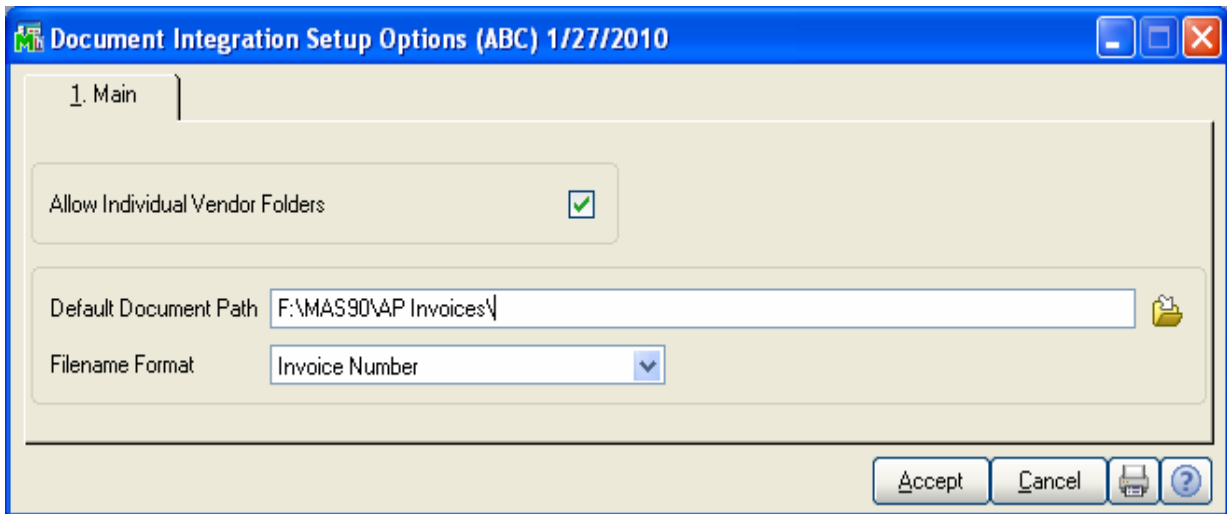

Key Features & Functions

- Integrate scanned AP invoices into Vendor Inquiry screens
- Integrate scanned AP invoices with AP Invoice History screens
- Store invoices in one “invoice folder” or in specific folders by vendor
- Name scanned documents with the invoice number or a combination of the vendor number and invoice number
- Find scanned AP documents using MAS90 and MAS200’s powerful searching capabilities and avoid implementing costly document management software

Integration Setup

1. Launch MAS90.
2. Select **Accounts Payable** from the *MAS90 Modules Menu*.
3. Select **Document Integration Setup Options** from the *Accounts Payable Setup Menu*.

4. Click the **Allow Individual Vendor Folders** checkbox if you want to save each vendor's documents in their own private folder.

If you check this box, you will be prompted in Vendor Maintenance to indicate a specific folder for each vendor.

NOTE: If you check this box, but leave the “individual vendor folder” field blank in Vendor Maintenance, the system will look to the *Default Document Path* on this screen for documents.

NOTE: If you do not check this box, the “individual vendor folder” field will not appear in Vendor Maintenance.

Leave the checkbox unchecked if you will be saving ALL vendor invoices into the same folder.

5. Type or select the **Default Document Path**.

This is the folder where the system will expect to find source documents.

NOTE: If you are using MAS 200 (and not MAS 90), the path may be automatically converted to the path with the server name instead of a mapped drive.

Integration Setup (Continued)

6. Select the **Filename Format** from the dropdown list. Options are:

Invoice Number

Vendor Number-Invoice Number

Example: if you have invoice number 12345XYZ from vendor number ABCCO:

Option

Invoice Number

Vendor Number-Invoice Number

Example

12345XYZ

ABCCO-12345XYZ

Depending on the option you choose, these are the filenames you will need to give the scanned or saved images.

Vendor Setup

If you checked the **Allow Individual Vendor Folders** in AP Document Integration Setup, then you will be able to designate a specific folder for each vendor.

1. Launch MAS90.
2. Select **Accounts Payable** from the *MAS90 Modules Menu*.
3. Select **Vendor Maintenance** from the *Accounts Payable Main Menu*.
4. Select the vendor.
5. Click the **Additional** tab.

The screenshot shows the 'Vendor Maintenance (DEF) 1/27/2010' window. The 'Additional' tab is selected. The 'Vendor No.' is AIRWAY and the 'Name' is Airway Property. The 'G/L Account' is 555-00-03. The 'Vendor Document Path' is F:\MAS90\Invoices\Airway. An arrow points to the 'Vendor Document Path' field.

6. Enter the specific document path where you will be saving documents for this vendor.

NOTES:

- This field will not appear if the checkbox is not checked in AP Document Integration Setup.
- If this field is left blank, the system will look for documents in the Default folder specified in AP Document Integration Setup.
