

ERPVAR.com and Faye Business Systems Group Announce Sage 100 ERP (formerly MAS 90) SugarCRM Integration Webcast Event

ERPVAR.com is pleased to present this Sage 100 ERP SugarCRM webcast with Faye Business Systems Group and two Sage 100 ERP consultants: Milestone Information Solutions based in Seattle, WA and Oasis Business Solutions based in Louisville, KY.

Woodland Hills, CA (PRWEB) December 11, 2012

Join ERPVAR.com and Faye Business Systems Group for this complimentary [Sage 100 ERP SugarCRM](#) integration webcast on Thursday, December 20, 2012 at 10 AM PT to learn how organizations can save time and money by integrating Sage 100 ERP (formerly MAS 90) accounting software with SugarCRM.

David Faye of Faye Business Systems Group will lead this presentation. David is the owner of Faye Business Systems Group. Faye Business Systems Group created the Sage 100 ERP (formerly MAS 90) SugarCRM integration to address the growing demand Sage 100 ERP (formerly MAS 90) users have for an integrated SugarCRM solution.

The SugarCRM Sage 100 ERP (formerly MAS 90) integration allows the user to enter sales orders in SugarCRM and have the orders synced into Sage 100 ERP (formerly MAS 90) in real-time, orders can be entered on laptops, ipads, and other mobile devices by salespeople on the road. The Sage 100 ERP (formerly MAS 90) SugarCRM integration eliminates the need to email orders into the office or to wait for remote access to Sage 100 ERP (formerly MAS 90). Orders entered in SugarCRM appear in Sage 100 ERP (formerly MAS 90), eliminating the need for redundant data entry and associated errors.

Inventory changes and customer name and address changes in one system can be instantly updated in the other as well. The attendees will learn how the Sage 100 ERP (formerly MAS 90) SugarCRM integration eliminates the need for expanding Sage 100 ERP (formerly MAS 90) user licenses by seeing ERP data in SugarCRM. Attendees will learn how sales representatives using the [SugarCRM Sage 100 ERP](#) (formerly MAS 90) integration can see on hand inventory quantities, open sales orders, invoice history,

PRESS RELEASE

customer credit information, and everything they need to view in Sage 100 ERP (formerly MAS 90) from SugarCRM. Companies can now potentially downgrade Sage 100 ERP (formerly MAS 90) user licenses because the sales representatives see all necessary information from SugarCRM and no longer need access to Sage 100 ERP (formerly MAS 90).

The Sage 100 ERP SugarCRM integration extends the functionality users have become accustomed to in the back office to the front office. The Sage 100 (formerly MAS 90) SugarCRM integration allows for a single view of customer interactions with your company. Learn how sales teams become focused on the company profit objectives using Sage 100 (formerly MAS 90) and SugarCRM combined to provide an enterprise-wide, consistent view of customer activity and opportunities.
