Sugar Authorize.net Integration Application Spec Sheet

Authorize.Net
a CyberSource solution

Now the world's leading CRM and payment solutions come together to provide security and peace of mind.

Secure Checkout

SugarCRM is the leading open source CRM software package in the world. Authorize.Net enables merchants to authorize, settle and manage credit card and electronically check transactions via Web sites, retail stores, mail order/telephone order (MOTO) call centers and mobile devices.

authorize, settle and manage credit card and electronically check transactions via Web sites, retail stores, mail order/telephone order (MOTO) call centers and mobile devices.

The FayeBSG SugarCRM Authorize.Net Integration Application allows you to securely enter credit card billing information on Authorize.Net from within Sugar CRM. Authorized users are able to charge and authorize credit cards for specific amounts. When using this enhancement, your client profiles and billing information will be organized and safely stored for easy access.

BENEFITS

- Safe and simple credit card transactions that are in compliance with all credit card laws.
- Protection of all your client profiles and billing information.
- Create quick and easy profiles with credit card data for all your customer quotes.
- Avoid re-entering billing information for returning clients.
- Fast and secure client billing and reprocessing of payments.
- Easy updating of all customer billing information.
- Ability to authorize and charge cards from Accounts, Contacts, and Quotes.
- Ability to place, authorize, and charge buttons in custom locations.

Shipping Address: Los Angeles Clipper
102 Chick Hearn Way
Los Angeles, CA 90010

Authorize.Net enables merchants to authorize, settle and manage credit card and electronic check transactions via Web sites, retail stores, mail order/telephone order (MOTO) call centers and mobile devices.

The Authorize.Net platform manages the routing of transactions just like a traditional credit card swipe machine you find in the physical retail world.

However, Authorize.Net uses the Internet instead of a phone line. The Authorize.Net Payment Gateway is available 24/7 for processing credit card transactions.
