

Faye Business Systems Group

Enhancement for Sage MAS 90 and MAS 200

Auto Complete Purchase Orders

Overview

Do you ever have trouble getting purchase orders removed from your Purchases Clearing Reports? For whatever reason, they stay in some form of backordered status and are not easily removed without a ton of manual entry and analysis. The **Auto Complete Purchase Orders (ACPO)** enhancement streamlines and automates the process of flagging purchase orders as complete so they are removed from Purchases Clearing Reports and Open Purchase Order Reports.

Key Features & Functions

- Automatically changes the status of purchase orders to complete
- Automatically makes line item receipt quantities equal to order quantities
- Keeps a log of completion entries
- Improves accuracy of purchase order reports
- Increases speed of reconciling purchase order data

Faye Business Systems Group Enhancement for Sage MAS 90 and MAS 200 Auto Complete Purchase Orders

Automatically Completing Purchase Orders

- 1. Launch MAS 90.
- 2. Select **Purchase Orders** from the *MAS 90 Modules Menu*.
- 3. Select Auto Complete Purchase Orders from the *Purchase Order Main Menu*.

👫 Auto Complete Purchase Orders	2	×
