NOTE :   Before proceeding with the following steps, either Azalea or a comparable barcode font and DLL will have to be installed on the workstation printing these barcodes.

1. Open the form you would like edit in Crystal Reports.

2. In Crystal Reports, create a formula called ItemBarcode128B:

3. In the formula workshop screen, edit the formula as follows:
    BarcodeC128B({SO_InvoiceWrk.ItemCode});

4. Place the new field in the report:

5. Change the font of the field to *Code128Wide*.

6. Save the form.

7. **PRINT** or **PREVIEW** the form.
