Sage 100 Enhanced Customer Deposit Tracking

Sage 100

THE FAYEBSG SAGE 100 ENHANCED CUSTOMER DEPOSIT TRACKING SPEC SHEET

THE FAYEBSG SAGE 100 ENHANCED CUSTOMER DEPOSIT TRACKING ADD-ON

If your business receives a high volume of customer deposits against sales orders, the **Sage 100 Enhanced Customer Deposit Tracking** add-on is for you.

The **Sage 100 Enhanced Customer Deposit Tracking** add-on allows you to post all cash receipts entered to a specific sales order, and then have visibility of all those deposits from the sales order itself or via reporting. It automates the entry of the deposit on the sales order, so you don't have to remember to add it or worry that you're entering the wrong amount that doesn't tie back to the actual cash receipt.

“The best implementations are the ones where you don't even know they occurred...Good work!”

Authorized Partner

KEY BENEFITS

- Streamline customer deposit processing and tracking process
- Apply cash receipt deposits to specific sales orders

OUR SAGE 100, ERP & ACCOUNTING SOFTWARE SERVICES

Welcome to the Software You've Always Wanted...

SAGE CERTIFIED DEVELOPERS

As a Sage Software Certified Developer, FayeBSG has authorized access to Sage 100 source code, which allows us to accomplish anything your company requires from the Sage software. This includes everything from developing entirely new, custom modules for clients, to integrating Sage 100 with complex third party applications. Over the years, we have developed over 3,000 Sage 100 enhancements.

INTEGRATIONS

We've built custom Sugar Integrations for Sage 100, QuickBooks, NetSuite and Intacct. Our Sugar integrations are built to seamlessly sync these platforms with Sugar. Additionally, we've customized Sugar to integrate with Sage 500 ERP, SYSPRO, and SAP ONE.

DATA MIGRATIONS

Taking the data from existing systems and transforming that data into a new system can be a daunting process. Our approach involves cleaning up the data from the original system to make sure you have all the correct records you need in the new system. This transformation is not a simple one-to-one process. We do extensive testing to aggregate fields, and customize data to look exactly the way you want it.

GENERAL CONSULTING SERVICES

We've completed hundreds of successful ERP and Accounting Software implementations and integrations. We'll evaluate your current business process and determine which platform might work best for your organization.

SUPPORT

We're experienced in Sage 100 Support and call help in many areas, including:

- Accounting operations
- Operations
- Customer Relationship Management (CRM)
- Human Resources (HR)
- Time Tracking
- Vendor Services
